---

## PROFESSIONAL SUMMARY

---

Senior Systems Engineer with 10+ years in IT infrastructure, including four-plus years running production operations across 24 domains for Veradigm's VEHR (Electronic Health Record) and VPM (Practice Management) healthcare platforms on Microsoft Azure and on-premises data centers. Specializes in certificate lifecycle automation, CVE and vulnerability remediation, Windows Server and Active Directory administration, and Parallels RAS. Turns manual, multi-engineer work into repeatable PowerShell, SQL, and KQL automation, cutting manual operational effort by about 90%. Microsoft Azure (AZ-900) and Parallels RAS TPA certified, now expanding into DevOps, AIOps, and GenAI-driven automation.

## KEY ACHIEVEMENTS

---

- Cut manual operational effort by about 90% with an AI-assisted PowerShell, SQL, and KQL automation repository.
- Conceived the Veradigm Diagnostic Agent (VDM) through two PowerShell proof-of-concept scripts; executives endorsed it and the development team built it.
- Owned 1,150+ Jira tickets and 90+ vulnerability remediation changes across 24 domains since 2023.
- Turned multi-night, multi-engineer certificate renewals into scripted, error-free work in minimal change tasks.
- Received the Solution Seeker award (DigiCert Rockstar) from Michael Sneeringer, VP Tech Ops & CIO, Veradigm (Aug 2024).

## CORE SKILLS

---

**Automation & Scripting:** PowerShell, SQL, KQL, AI-assisted development, parameterized multi-domain scripts, runbook and SOP automation

**DevOps & AIOps:** Azure DevOps, GitHub, proactive health checks, Slack alerting, n8n, LangChain, root-cause analysis

**Cloud & Containers:** Microsoft Azure (IaaS, PaaS, VDI), Azure Event Grid, Docker, Microsoft Service Fabric, microservices, AWS fundamentals

**Vulnerability & Patch:** CVE remediation, Automox, Rapid7 InsightVM (Nexpose), Wiz, CrowdStrike Falcon, SCCM, WSUS, Intune, Office Deployment Tool, PDQ Deploy

**Security & Compliance:** SSL/TLS certificate lifecycle, PKI, CIP compliance, Forcepoint DLP, NAC, ClearPass, endpoint security

**Operating Systems & Identity:** Windows Server 2012-2022, Linux (Debian), IIS, Active Directory, Group Policy, Entra ID, Azure MFA, gMSA, IdentityIQ, Okta, SAML/SSO

**Virtualization & VDI:** Parallels RAS, RD Gateway, RD Web, RDSH, VMware Horizon, Citrix, application publishing

**Healthcare Platforms:** Veradigm VEHR, Veradigm VPM, Unity, FHIR, Shield, Onsite Security Agent (OSA), Security Token Service (STS)

**ITSM & Collaboration:** ServiceNow, Jira, Confluence, Salesforce, BMC Remedy, ManageEngine, Microsoft 365, Teams, Slack

**Networking:** Cisco networking, VPN, DNS/DHCP, Wireshark, network troubleshooting

## PROFESSIONAL EXPERIENCE

---

### Veradigm India Pvt. Ltd.

Vadodara, India | Remote

Formerly Allscripts India LLC

#### Senior Systems Engineer

Apr 2025 - Present (promoted)

- **Operations:** Own day-to-day operations across 24 domains of hosted VEHR, VPM, and Parallels RAS environments on Azure and on-premises data centers.
- **Automation:** Built an AI-assisted PowerShell, SQL, and KQL automation repository, cutting manual operational effort by about 90%.
- **Certificate lifecycle:** Lead and mentor the certificate lifecycle management team, owning Unity, FHIR, VPM, OSA, STS, Shield, signing, wildcard, and self-signed certificate renewals on Windows Server and Linux (Debian, via Azure Serial Console).
- **Vulnerability remediation:** Remediate CVEs across 24 domains with Automox, Wiz, and Rapid7 InsightVM (Nexpose); standardized Office vulnerability fixes using GPO and the Office Deployment Tool, and removed vulnerable legacy drivers (Win32.Driver.LOLDriver) from VMs with multi-domain PowerShell.
- **Security agents:** Deployed and restored Automox and Rapid7 InsightVM agents and CrowdStrike Falcon sensors across multiple AD domains for full patching, scanning, and EDR coverage.
- **Server health:** Resolve CPU, memory, disk capacity, and IIS performance alerts escalated from the NOC; tune application pools, rebuild performance counters, and reset services.
- **Escalation:** Support VPM microservices on Docker and Service Fabric, serve as US off-hours escalation point for major incidents, and author the team's Confluence runbooks.

#### Systems Engineer

Dec 2021 - Mar 2025

- Managed SSL/TLS certificate renewals for VEHR and VPM and removed 146,450 expired certificates from 4,205 servers.
- Remediated high-severity Wiz findings on exposed Azure VMs and CVEs including CVE-2013-3900, CVE-2023-38545, and CVE-2024-38063.
- Ran weekly CIP compliance cleanup of banned and weak passwords and 90/180-day inactive account reviews; created gMSA accounts and AD security groups.
- Published Azure RD Web apps from RD Gateway to Parallels RAS farms and decommissioned RD Session Hosts on schedule.
- Migrated runbooks from OneNote to Confluence and worked incidents and changes in ServiceNow, Jira, and Salesforce.

### Microware Computing & Consulting

Gurugram, India

Client: Convergent Outsourcing Inc., USA (now part of Transworld Systems Inc., TSI)

#### L2 IT Helpdesk Engineer

Jul 2021 - Dec 2021

- Resolved escalated L2 incidents from L1 teams across desktop, laptop, VDI, and remote-user environments within SLA.
- Administered Microsoft 365, Teams, Azure MFA, Intune, and Active Directory, and supported Citrix, VMware Horizon, AnyConnect, RSA SecurID, and DUO.
- Worked with Microsoft Premier Support on complex issues and wrote knowledge-base articles to improve first-contact resolution.

**NOC IT Engineer****Aug 2020 - Jul 2021**

- Handled 100+ calls daily during US morning hours (IST evening), remotely resolving technical issues for Convergent, ACT Holdings, and Duke Energy users.
- Tracked requests in ManageEngine and automated software deployment and asset inventory with PDQ Deploy and PDQ Inventory.
- Administered joiner, mover, and leaver user lifecycle through Active Directory and AD Manager Plus.
- Delivered the FACS SMS & Email Monitoring project and trained junior engineers.

**Wipro Limited****Greater Noida, India**

Client: EXL Services, Noida

**Technology Remote Support Engineer****Nov 2019 - Jul 2020**

- Handled inbound calls from US and UK customers plus Teams chats, emails, and BMC Remedy tickets.
- Supported Microsoft 365, Skype for Business, Citrix SecureHub, GlobalProtect VPN, DirectAccess, McAfee Endpoint Security, and Avamar Backup.
- Wrote troubleshooting procedures and coordinated with resolver teams to drive end-to-end incident resolution.

**Endpoint Compliance Engineer****Oct 2019 - Nov 2019**

- Validated endpoint compliance with NAC and ClearPass OnGuard posture checks before granting network access.
- Enforced data loss prevention policies with Forcepoint DLP and verified OS activation and patch status.
- Repaired SCCM clients and deployed software and Windows updates through SCCM and WSUS to restore compliance.

**PC Solutions Pvt. Ltd.****New Delhi, India**

Client: American Express, Gurugram

**Remote Desktop Support Engineer****Feb 2019 - Sep 2019**

- Handled concurrent chats, emails, and ServiceNow tickets while maintaining a 95.6% CSAT rating.
- Supported desktops, laptops, printers, and BYOD mobile devices with Microsoft Office, Cisco AnyConnect, Slack, Avaya, and Okta.
- Managed IdentityIQ (IIQ) access administration and trained and onboarded new support staff.

**Cryptus Cyber Security Pvt. Ltd.****New Delhi, India****Technical Support Engineer****Sep 2017 - Feb 2019**

- Configured enterprise workstations, software, and hardware, and installed security patches and updates.
- Performed malware removal, ransomware remediation, backups, and disaster recovery for business-critical data.

**PC Solutions Pvt. Ltd.****New Delhi, India**

Client: Fiserv India Pvt. Ltd., Noida

**Junior Remote Support Engineer****Aug 2016 - Sep 2017**

- Handled inbound calls, emails, and FACETS tickets from internal users across Windows desktop environments.
- Supported Outlook, Lync, Skype for Business, and Windows, troubleshooting remotely through MSTSC, MSRA, and WebEx.
- Ran root-cause analysis on repeat issues to drive permanent fixes.

## KEY PROJECTS

---

### Veradigm Diagnostic Agent (VDM)

Proactive monitoring

- Conceived the idea and wrote two PowerShell proof-of-concept scripts for VPM and VEHR; executives endorsed it and the development team built an agent that checks network, OS, CPU, RAM, disk, services, IIS, certificates, config files, OSA, STS, and databases, alerting teams in Slack before clients report issues.

### Certificate Lifecycle Automation

PowerShell

- Built a fleet report that maps every certificate touchpoint: IIS and netsh bindings, private keys, exportable keys, and thumbprints in C:\inetpub config files and databases.
- Replaced multi-night, multi-engineer renewals with scripted, error-free work completed in minimal change tasks, tested across 19 Azure subscriptions and 2,500+ VMs.

### Vulnerability Remediation Program

Security

- Remediated CVEs by category (OS, Edge, Office, legacy drivers) across 24 domains through 90+ changes, including removal of vulnerable LOLDriver binaries and Automox agent redeployment.

## RECOGNITION

---

### Solution Seeker Award, DigiCert Rockstar

Aug 2024

Michael Sneeringer, Vice President Tech Ops & Chief Information Officer, Veradigm

- Recognized for running remediation scripts, training other admins, and executing clean-up steps during the DigiCert certificate incident, preventing a major service disruption.

## CERTIFICATIONS

---

- Microsoft Certified: Azure Fundamentals (AZ-900)
- Parallels RAS Technical Professional Advanced (TPA)
- Parallels RAS Technical Professional (TP)
- Parallels Desktop Technical Professional (TP)
- AI Generalist, be10X AI Career Accelerator (2026, program in progress)
- **LinkedIn Learning (DevOps & AI)**: DevOps Foundations; Career Essentials in Generative AI (Microsoft); Generative AI with Hugging Face; Continuous Delivery with Azure DevOps
- **LinkedIn Learning (Cloud)**: AWS Cloud Practitioner (CLF-C02) Prep; Azure Administration; Migrating Storage to Azure; Azure Event Grid
- **LinkedIn Learning (Network & ITSM)**: ServiceNow IT Leadership; Network Administration; Cisco Networking; Wireshark; Troubleshooting IT Remote Administration; Program Management for IT Professionals

## EDUCATION

---

### B.Tech, Computer Science & Engineering

2012-2015

S.S. College of Engineering, Udaipur | Rajasthan Technical University

### Diploma, Computer Science & Engineering

2009-2012

Government Polytechnic College | Board of Technical Education, Rajasthan
