

# Himanshu Joshi

Senior Systems Engineer • Healthcare IT Infrastructure • Cloud & Automation

[hrjoshill@gmail.com](mailto:hrjoshill@gmail.com) • +91-7597-130-487 • Vadodara, Gujarat, India • [linkedin.com/in/hrjoshill](https://www.linkedin.com/in/hrjoshill) • [github.com/hrjoshill](https://github.com/hrjoshill)

## PROFESSIONAL SUMMARY

Senior Systems Engineer with 9+ years of experience supporting enterprise healthcare infrastructure, Windows Server environments, Microsoft Azure, Active Directory, endpoint management, virtualization, and security operations. Proven in certificate lifecycle management, infrastructure automation, vulnerability remediation, and production support across multi-domain cloud and on-premises data center environments. Microsoft Azure (AZ-900) and Parallels RAS TPA certified, with strong PowerShell automation, operational excellence, and DevOps-focused process improvement.

## KEY ACHIEVEMENTS

- Reduced manual operational effort by approximately 90% through an AI-assisted automation repository (PowerShell, SQL, KQL).
- Sustained zero certificate-related outages across enterprise healthcare certificate lifecycle management.
- Promoted from Systems Engineer to Senior Systems Engineer at Veradigm.
- Built diagnostic automation to self-diagnose issues across Veradigm VEHR and VPM applications.
- Delivered the RD Session Host decommissioning project and Azure RD Web publishing to Parallels RAS farms.

## CORE SKILLS

|                        |                                                                                                               |
|------------------------|---------------------------------------------------------------------------------------------------------------|
| Operating Systems      | Windows Server 2012/2016/2019/2022, Windows 10/11, Active Directory Domain Services, Group Policy             |
| Cloud                  | Microsoft Azure (IaaS & PaaS), Azure VDI, Azure DevOps Services, Azure Event Grid, AWS (foundational)         |
| Identity & Access      | Active Directory, Azure AD (Entra ID), Azure MFA, gMSA, Group Policy, IdentityIQ, Okta, SAML / SSO            |
| Endpoint & Patch       | Microsoft Endpoint Manager (Intune), SCCM, WSUS, Windows patching, PDQ Deploy & Inventory                     |
| Virtualization & VDI   | Parallels RAS, VMware Horizon, RD Gateway, RD Web, RDSH, Citrix, application publishing                       |
| Security & Compliance  | SSL/TLS & certificate lifecycle, PKI, CVE & vulnerability remediation, Forcepoint DLP, NAC, endpoint security |
| Automation & Scripting | PowerShell, SQL, KQL, AI-assisted automation, process & operational automation, runbook/SOP standardization   |
| Observability          | Application diagnostics, log analysis, root-cause analysis, proactive monitoring, self-healing automation     |

|                                   |                                                                                            |
|-----------------------------------|--------------------------------------------------------------------------------------------|
| <b>Healthcare Platforms</b>       | Veradigm VEHR, Veradigm VPM, healthcare application support, healthcare IT infrastructure  |
| <b>ITSM &amp; Monitoring</b>      | ServiceNow, Jira, Confluence, BMC Remedy, ManageEngine, incident & change management       |
| <b>Remote &amp; Collaboration</b> | Microsoft Teams, Microsoft 365, Outlook, Quick Assist, TeamViewer, Bomgar, DameWare        |
| <b>Networking</b>                 | Cisco networking, VPN, DNS / DHCP, Wireshark, routing & switching, network troubleshooting |

## PROFESSIONAL EXPERIENCE

---

### Veradigm India Pvt. Ltd.

Vadodara, India • Remote

*Formerly Allscripts India LLC*

#### Senior Systems Engineer

Apr 2025 – Present

- Built and maintained an extensive AI-assisted automation repository of PowerShell, SQL, and KQL scripts, reducing manual operational effort by approximately 90% across recurring infrastructure tasks.
- Automated certificate lifecycle management, Parallels RAS administration, and routine Windows Server operations including profile cleanup, disk cleanup, and operational reporting.
- Designed diagnostic automation to identify and self-diagnose issues across the Veradigm VEHR and VPM applications used by healthcare clients, improving troubleshooting efficiency and reducing resolution times.
- Led certificate renewals across multi-domain cloud and on-premises data center environments, sustaining zero certificate-related outages for critical healthcare applications.
- Authored and maintained automation documentation, SOPs, and runbooks to enable consistent execution across support and infrastructure teams.
- Served as an escalation point on major-incident bridge calls and on-call rotations, mentoring engineers and providing backup for US-based infrastructure teams.

#### Systems Engineer

Dec 2021 – Mar 2025

- Managed the full lifecycle of Unity, FHIR, OSA, STS, self-signed, and wildcard SSL/TLS certificates across enterprise healthcare environments.
- Administered certificate renewals across multi-domain cloud and on-premises data center environments, ensuring secure, uninterrupted access to critical healthcare applications.
- Remediated CVE vulnerabilities and infrastructure security findings performed CIP compliance activities including duplicate and banned password remediation and inactive account management.
- Created and managed gMSA service accounts, Active Directory security groups, and privileged access controls aligned to security best practices.
- Published Azure RD Web applications from RD Gateway servers to Parallels RAS farms and delivered the RD Session Host decommissioning project on schedule.
- Led migration of operational runbooks and technical documentation from OneNote to Confluence, improving knowledge management and operational consistency.
- Resolved incidents, service requests, and change activities in Jira and ServiceNow while supporting critical production healthcare environments.

## **Microware Computing & Consulting**

Gurugram, India

*Client: Convergent Outsourcing Inc. (USA)*

### **L2 IT Helpdesk Engineer**

Jul 2021 – Dec 2021

- Resolved escalated L2 incidents from L1 support teams across desktop, laptop, VDI, and remote-user environments while maintaining SLA compliance.
- Administered Microsoft 365, Teams, Azure MFA, Microsoft Endpoint Manager, and Active Directory for enterprise end users.
- Supported Citrix Workspace, VMware Horizon, Cisco AnyConnect, RSA SecurID, DUO Mobile, Avaya, and LiveVox platforms.
- Coordinated with Microsoft Premier Support to resolve complex platform and configuration issues.
- Authored knowledge-base articles and support documentation to accelerate first-contact resolution.

### **NOC IT Engineer**

Aug 2020 – Jul 2021

- Processed 200+ support requests monthly while monitoring infrastructure and meeting SLA targets.
- Automated software deployment and asset inventory through PDQ Deploy and PDQ Inventory.
- Administered full user-lifecycle management (joiner, mover, leaver) via Active Directory and AD Manager Plus.
- Delivered the FACS SMS & Email Monitoring project, identifying and reporting production issues to development teams.
- Trained junior engineers and developed operational documentation and runbooks.

## **Wipro Limited**

Greater Noida, India

*Client: EXL Services, Noida*

### **Technology Remote Support Engineer**

Nov 2019 – Jul 2020

- Provided technical support to US and UK users across Microsoft 365, Skype for Business, Citrix SecureHub, Global Protect VPN, DirectAccess, McAfee Endpoint Security, and Avamar Backup.
- Coordinated with multiple support teams to drive end-to-end incident resolution.
- Created technical documentation and troubleshooting procedures to standardize support.
- Maintained high levels of customer satisfaction across a distributed user base.

### **Endpoint Compliance Engineer**

Oct 2019 – Nov 2019

- Managed endpoint compliance and security validation across the managed device fleet.
- Worked with NAC, SCCM, WSUS, Windows patching, Forcepoint DLP, ClearPass OnGuard, and OS activation compliance.
- Performed SCCM client repair, software deployment, and troubleshooting to maintain compliance posture.

## **PC Solutions Pvt. Ltd.**

New Delhi, India

*Client: American Express, Gurugram*

### **Remote Desktop Support Engineer**

Feb 2019 – Sep 2019

- Supported desktops, laptops, printers, BYOD mobile devices while maintaining a 95.6% CSAT rating.
- Supported Microsoft Office, Cisco AnyConnect, Slack, Avaya, Okta, and enterprise applications.
- Managed IdentityIQ (IIQ) access administration and documented incidents and resolutions in ServiceNow.
- Trained and onboarded new team members and support staff.

## **Cryptus Cyber Security Pvt. Ltd.**

New Delhi, India

### **Technical Support Engineer**

Sep 2017 – Feb 2019

- Configured enterprise workstations, software, and hardware for new and existing users.
- Performed malware removal and ransomware remediation to restore affected systems.
- Managed backups and disaster recovery activities to protect business-critical data.
- Installed security patches and software updates to maintain endpoint security.
- Coordinated with vendors to resolve hardware and software issues.

## **PC Solutions Pvt. Ltd.**

New Delhi, India

*Client: Fiserv India Pvt. Ltd., Noida*

### **Junior Remote Support Engineer**

Aug 2016 – Sep 2017

- Managed incidents and service requests through FACETS across Windows desktop environments.
- Supported Outlook, Lync, Skype for Business, and Windows platforms for enterprise users.
- Performed remote troubleshooting through MSTSC, MSRA, and WebEx.
- Conducted root-cause analysis to drive permanent issue resolution.

## **EDUCATION**

---

### **B.Tech, Computer Science & Engineering**

S.S. College of Engineering, Udaipur • Rajasthan Technical University • 2012–2015

### **Diploma, Computer Science & Engineering**

Government Polytechnic College • Board of Technical Education, Rajasthan • 2009–2012

## **CERTIFICATIONS**
